## CONTROL PAD LAYOUT

Instructions for Controller Heads:

- 26400-100-103
- 26400-102-113
- 26400-100-113
- 26400-102-103

# 1. OPERATING INSTRUCTIONS

## 1. Blower

- a. Press and hold Blower button for ~2 seconds to turn ON. The Blower will start on the highest fixed blower speed setting of "6".
- b. To adjust the "fixed" blower speed setting, tap the Plus or Minus buttons. The Blower has six fixed speeds that can be adjusted from "6" to "1".
- c. Press and hold to turn Blower OFF.

## 2. Pulse/Wave

- a. With Blower on, tap Wave/Pulse button to turn ON Wave
- b. Tap again to switch to Pulse.
- c. Tap again to switch back to Wave.
- d. To exit Pulse/Wave, tap Blower button once to resume Speed 6, or press and hold Blower button to turn OFF.

## 3. Automatic Purge/Clean Cycle

Any system fitted with a blower automatically contains the Purge/Clean cycle feature. 15 minutes after the blower is turned off using the Non-LCD control pad the blower will activate for 3 minutes. During the blower Purge/Clean cycle the Non-LCD control heads will light up the Blower Icon indicating the cycle is active. When the system is in the purge/clean cycle the cycle cannot be stopped by pressing any buttons on the control head.

# 2. FAQ & TROUBLESHOOTING

## 1. What do I do if the Blower does not turn on?

- a. Check electrical connections to the Blower.

## 2. Blower turns on by itself?

- a. Check to see if the blower is in the purge cycle (Blower light is lit and the blower cannot be turned off by pressing any buttons).
- b. After 3 minutes does the Blower turn off, if so the blower is in the Purge/Clean Cycle
